

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

APRIL 15, 2008

San Martinez Road is a collector street that is the sole access to Val Verde County Park and several hundred residents. The area is experiencing a high frequency of speeding motorists, due to the fact that San Martinez is a long, straight road without adequate controls to slow down drivers. Residents of the area report both traffic accidents and many near-misses, some involving children or families visiting the park.

The installation of traffic signs and speed cushions would protect both residents and visitors to Val Verde County Park.

I, THEREFORE, MOVE that the Board of Supervisors direct the Director of Public Works to:

- Install speed cushions at three locations: approximately 300' east of Vadito Place; at 31007 San Martinez Road, near the culvert on the north side of the road, underneath the existing street light; and near 30526 San Martinez Road, underneath the existing street light;
- Install a 4-way stop sign at three locations: the intersection of San Martinez Road and Paradise Road; the intersection of San Martinez Road and Kensington Road; and the intersection of San Martinez Road and Parker Road;
- Report back to the Board of Supervisors every thirty days until the speed cushions and stop signs are in place.
